ST344 Team Report

Team ARIMA

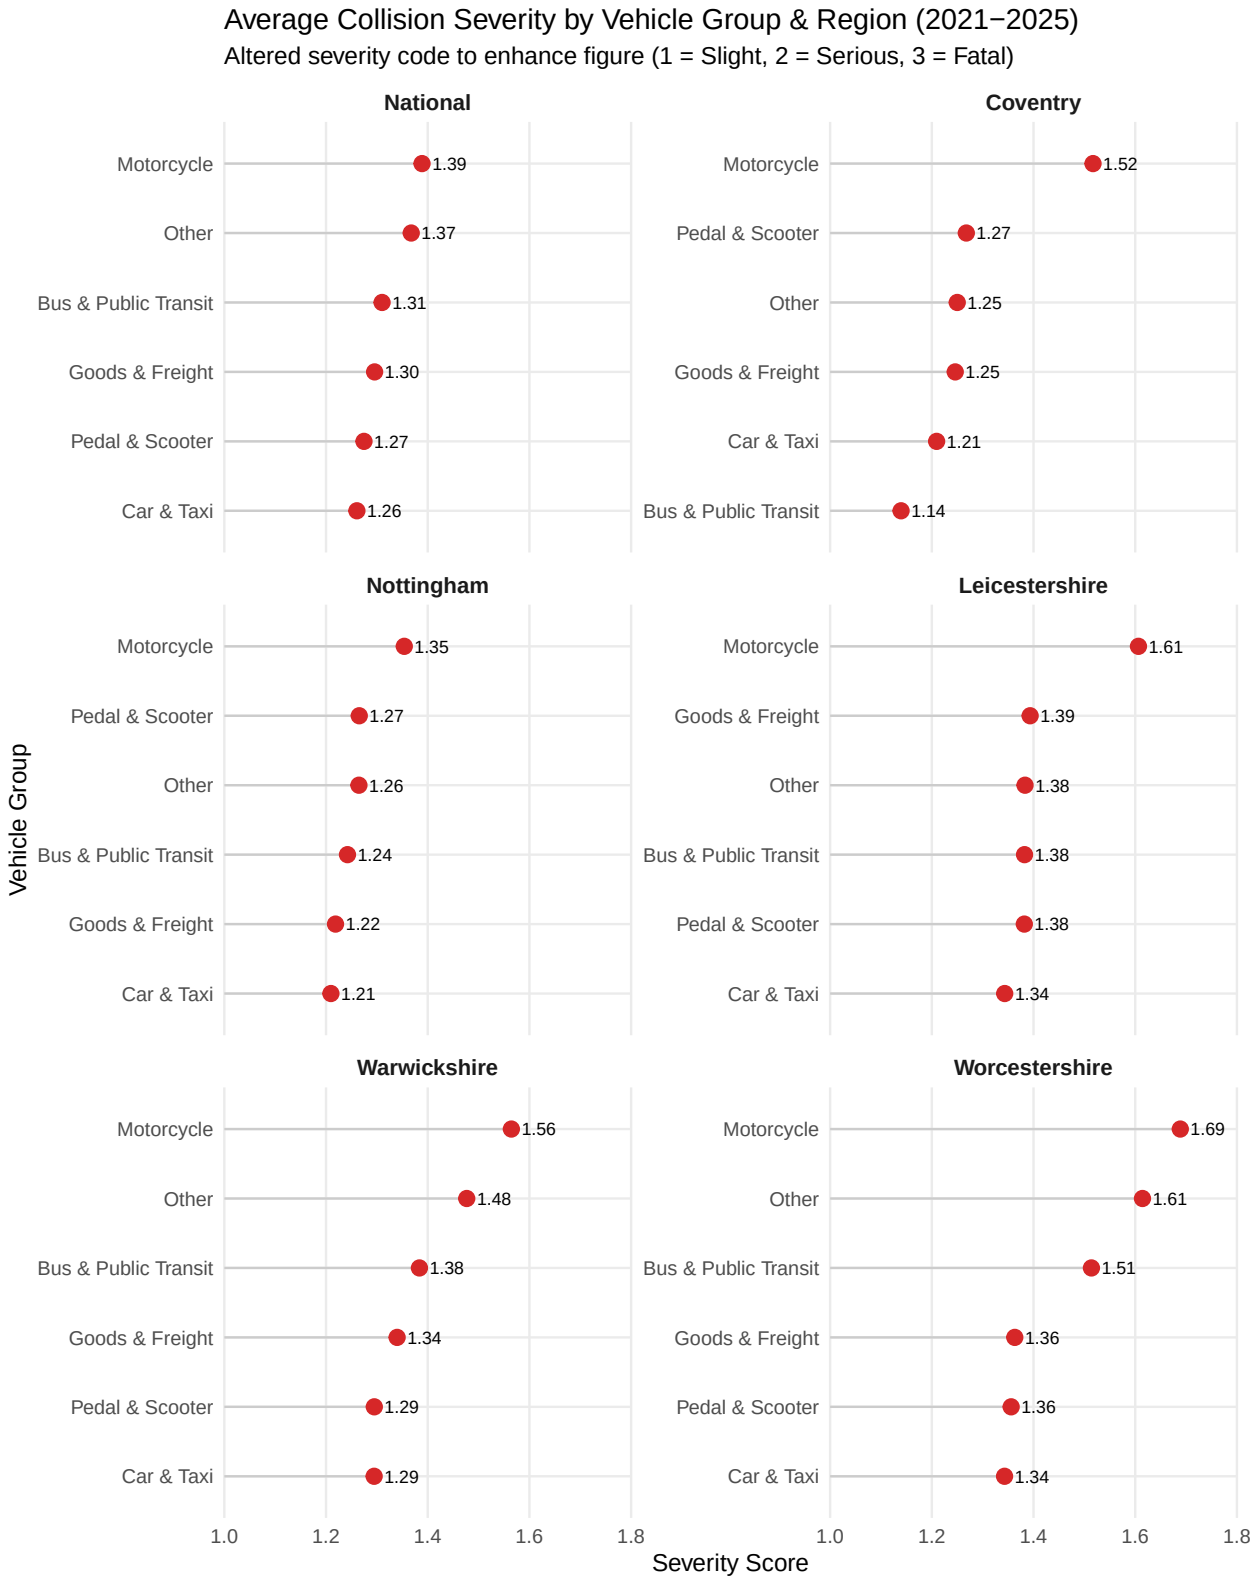

Data Analysis for WCivic (Phase 1)

Data:

Data obtained from government website, the safety data used in this project will only include the past 5 years of data (2025-2021). Something important to note with the safety data is that collisions involving more than a single vehicle record the collision multiple times for each vehicle.

Data cleaning and preprocessing

Vehicle compositions effect on local safety outcomes

Phase 2 Analysis
